

EARLY RELEASE PROGRAMS

MCGOVERN SCHOOL – Grades K-1

MG8. SLIME TIME SCIENCE – Grades K & 1 Early Release Day

Slime is all the rage! In this fun, new program, students will create amazing slime samples using the coolest formulas! Join us to make amazing glow in the dark slime, super smelly putty, polka dot slime and a color explosion goop! We will also whip up an undersea slime and a bouncy ball! Please send a lunch and drink with your child.

Wicked Cool for Kids Staff – McGovern School Cafeteria 12:00-2:30pm
Thursday, December 7 1 session **\$48**

MG9. SPLAT SCIENCE – Grades K & 1 Early Release Day

This exciting new program is all about the “art” of science! Students will learn about coral reefs and undersea habitats through the use of sponge paintings and printing techniques. They will also learn the parts of a flower through the creation of beautiful “digital” finger paintings. Lastly, students will study facial symmetry with the creation of a 3D effect modeled after Monet’s *Water Lilies* as they create their own self-portrait. Please send a lunch and drink with your child.

Wicked Cool for Kids Staff – McGovern School Cafeteria 12:00-2:30pm
Tuesday, December 12 1 session **\$48**

A19. SPORTS MANIA – Grades K-4 Early Release Day

Are you looking for an exciting activity on the two early release conference days? If your child loves to play fun games and sports, this is the program for them! Let us help keep your child happy and active with two stimulating afternoons of soccer, flag football, kickball, dodge ball, and wiffle ball. Each sport will be played with a variety of instructional and entertaining games and scrimmages. *Students must be escorted to Memorial Gym by parent/guardian at 1:00pm. No transportation provided from McGovern School.*

F.A.S.T. Athletics Staff – Memorial School Gym 1:00-3:00pm
Thursday, December 7 & Tuesday, December 12

MEMORIAL SCHOOL – Grades 2-4

MM15. EGG CRASH CARS – Grades 2-4

Accept the design challenge! You are an engineer and your job is to design a race car – it must be sleek, fast, and, most important, safe. Why? Because your car will have a very important passenger...an EGG! Can you build a car safe enough to keep the egg from breaking? Please send a lunch and drink with your child.

Wicked Cool for Kids Staff – Memorial School Cafeteria 11:30am-2:00pm
Thursday, December 7 1 session **\$48**

MM16. MAKE A CIRCUIT WORKSHOP – Grades 2-4

Spark your interest in electronics with this workshop from Circuit Lab! Participants will discover basic circuitry and programming concepts, and then apply them to creative, expandable projects. Each participant will create a custom light-up circuit game from individual components, and then, working in pairs, use Arduino microcontrollers to design programmable light circuits. At the end of the program, the homemade games are yours to keep. Our experienced instructors will help participants create the devices of their dreams. Please send a lunch and drink with your child.

Circuit Lab Staff – Memorial School Cafeteria 11:30am-2:00pm
Tuesday, December 12 1 session **\$35**

A19. SPORTS MANIA – Grades K-4

Are you looking for an exciting activity on the two early release conference days? If your child loves to play fun games and sports, this is the program for them! Let us help keep your child happy and active with two stimulating afternoons of soccer, flag football, kickball, dodge ball, and wiffle ball.
