MOUNTAIN BIKE TRAINING CAMP

Ages: Grades 7-12
Sgt. Jeffrey Watson

The Medway Police Department, in conjunction with the Alex Handy Project and Police Mountain Bike Training (PMBT) of New England, is offering a three-day bike safety camp. The camp teaches children the proper techniques for riding a bike off-road, road rules and safety tips, as well as the proper fit of a bike, bike mechanics and, most important, control of the bike. Participants are taught control by maneuvering between cones, going over curbs and smaller obstacles, and going down stairs.

All participants must be able to comfortably ride a bike - the third day is physically demanding as the group is riding off-road for several hours. **Equipment Required:** mountain bike in good working order (no BMX style bikes), helmet, gloves (optional but highly recommended), safety glasses, comfortable biking clothes and a water bottle.

Lunch is served on the third day, and all participants receive a free t-shirt and a Milford Bicycle coupon for 5% off a new bike or 10% off equipment or service. All proceeds from registrations benefit the Community Education scholarship fund to help families in need. Please contact Sgt. Jeffrey Watson at jwatson@medwaypolice.com with questions.

CIRCUIT MAKERS 101

Ages: Entering Grades 1-3
Circuit Lab

Let's get creative with electricity! In this junior version of our Hands-On Electronics class, students will gain experience with creating their own electronics, designing custom light-up greeting cards, electric games, mazes, and even musical instruments. Each class day consists of a circuitry lesson and a hands-on electronics project, using components like lights, buzzers, switches, motors, and sensors. Circuit Lab staff will make sure participants create many projects that they can be proud of, and each class day includes a take-home project.

HANDS-ON ELECTRONICS

Ages: Entering Grades 4-7
Circuit Lab

Tinker with electronics while learning the basics of computer programming! This electrifying program begins with experiments that teach the fundamentals of electronics and circuitry, and steps up to projects where our class of young makers will design their own interactive and programmable devices. Participants use the latest tools including Arduino (for building interactive devices) and Raspberry Pi (for learning about computers and coding) to experiment with LEDs, resistors, motors, and programming. Each class day gives participants the chance to design a hands-on project with the guidance of skilled Circuit Lab instructors. Returning students are presented with new projects and challenges throughout the week.

MULTI-SPORT– Skyhawks Sports Academy Soccer, Basketball & Flag Football

Ages: 7-12

Our multi-sport camp is designed to introduce young athletes to a variety of different sports in one setting. Athletes will learn the rules and essentials of each sport through skill-based games and scrimmages. By the end of the week, your child will walk away with knowledge of multiple sports along with vital life lessons such as respect, teamwork, and self-discipline. Please bring a water bottle and snack, apply sunscreen each morning, and wear comfortable clothing and sneakers. All participants receive a Skyhawks Sports Academy shirt, a merit award, and a ball at the end of the program.

YOUTH SWIM LESSONS

Ages: 6 months-12 years

Franklin YMCA

The Franklin YMCA has been teaching children how to be safe around water for decades. Please note - the YMCA revised its swim lesson structure to simplify and more accurately describe skill levels.

Swim Stages: Stages, which better reflect the skills learned, are now used instead of fish levels. The curriculum better serves the different learning styles of children. The structure is simplified and focuses on benchmark skills and goals in each stage. Children progress from fundamentals to stroke technique over six distinct stages. Visit the YMCA’s website at www.hockymca.org for more information and a detailed guide on which stage is appropriate for your child.

Program Member Fee: When you register through Medway Community Education, registrants receive the Program Member Fee without having to pay an annual fee. To view all new class descriptions in each swim stage, please check the YMCA’s website at www.hockymca.org. Once you have determined the stage, please register through our department – online or by mail. Do not register through the YMCA’s portal.

Registration: For information about swim lessons, please visit the Community Education website at www.medwayce.org and select the link **YMCA Programs**.

COLLEGE ESSAY WORKSHOP

Ages: Entering Grade 12
Medway High School Staff

This intensive workshop will provide students with the time and opportunity to begin the college application process and *write their essay before senior year is in full swing*. Whether students have a rough draft or no idea what to write about, this workshop will meet them where they are. Participants will work individually and in groups with dedicated teachers to develop, write and refine well-developed essays in their authentic voice. In addition, there will be opportunities to learn more about specific topics, such as college interview etiquette and preparation, scholarship opportunities, and how to be social media savvy. *Students will leave with an essay, as well as an invitation to join a social media group for access to ongoing resources and support*. Join us with plenty of ideas, questions, and energy to make the most of this workshop and take some stress out of your senior year! Please bring a lunch to each session.

IN CONTROL ADVANCED DRIVER TRAINING Crash Prevention Course

In Control is a non-profit organization that offers the nation’s first state certified crash prevention training to drivers of all ages. The program provides students with valuable hands-on experience in skid control, accident avoidance and other crucial driving skills that cannot be practiced on public roads. The course consists of a closed course hands-on crash prevention training, supplemented by classroom discussion.

In Control is pleased to offer Medway families a \$60 subsidy/discount when registering for this course. To take advantage of this reduced price, reserve a course online or call us at 888-301-SAFE. Enter “MedwayHS” in the subsidy/discount code section of the payment screen or mention the code when registering by phone. Check out this and other discounts at www.driveincontrol.org/medwayhs.
