SCHOOL COMMITTEE POLICY

Policy #07

Interviewing of Applicants

Interviews will be conducted by administration under guidelines established from time to time by the superintendent of schools.

In the event a faculty or staff member is an applicant for a position for which he/she is currently certified, an interview will be conducted at a time of mutual convenience or at a time scheduled in a similar manner as other applicants for the same position.

The superintendent will periodically inform the school committee of staffing changes as part of his/her report during regular school committee meetings.
